

changeproof evidence pack: card-billing v1.4 (synthetic)

Repository: card-billing

Commits 96d679cbb195..77ec47e33107: 2 changes. Generated 2026-10-01T12:00:00Z by changeproof 0.1.0.

How to check this pack

Everything in this report is read from the signed attestations in the attestations folder, and nothing else. Run: `changeproof pack-verify <pack folder> --trust <public key> ...` It verifies every signature offline and rebuilds this report and the OSCAL files from the attestations; each must match the digest in `pack.dsse.json` byte for byte.

Behavioral equivalence means the characterization tests found no difference. It is evidence from tests, not a proof for all inputs. Programs it could not test are listed.

Crypto profile

Crypto profile: hybrid

evidence signing: ml-dsa-87, ecdsa-p384; release signing: lms-sha256-192; hash: sha-384

this pack is signed with ml-dsa-87 (key 5073b4c8ee3559fb)

this pack is signed with ecdsa-p384 (key a02be7648ef76978)

Change 1 of 2: commit 085d6bfff07ee

Who and why

author: priya.raman@billing.example (git author,

git-commit/085d6bfff07ee33704f51327869bb05b835d15bb5:3)

committer: priya.raman@billing.example (git committer,

git-commit/085d6bfff07ee33704f51327869bb05b835d15bb5:4)

approver: dana.okafor@billing.example (Approved-by trailer,

git-commit/085d6bfff07ee33704f51327869bb05b835d15bb5:9)

agent: feebot@tools.example (Assisted-by trailer,

git-commit/085d6bfff07ee33704f51327869bb05b835d15bb5:8)

ticket: LOAN-2 (commit subject, git-commit/085d6bfff07ee33704f51327869bb05b835d15bb5:6)

What it touches: 2 entities changed, 2 impacted (2 definite, 0 probable, 0 possible), 0 gaps reported. Touches crypto: no.

src/batch/FEECALC.cbl:15-41 paragraph MAIN-PARA (modified)

src/batch/FEECALC.cbl:35 flow COMPUTE (modified)

src/batch/FEECALC.cbl:11 data LK-FEE (definite)

src/batch/FEECALC.cbl:1-41 program FEECALC (definite)

relied on by statement-print through batch-fees

Outside the impact set: equivalent. 37 tests (outside-impact-set): 37 same, 0 different, 0 errors.

Linked to this change's impact attestation by its digest.

Policy rules (OPA 1.21.1): all hold.

no-new-quantum-vulnerable-crypto: pass

agent-changes-need-independent-approval: pass

equivalence-required-outside-impact-set: pass

Change 2 of 2: commit 77ec47e33107

Who and why

author: priya.raman@billing.example (git author,

git-commit/77ec47e33107b346431f3194558ae0cebfbf6648:3)

committer: priya.raman@billing.example (git committer,

git-commit/77ec47e33107b346431f3194558ae0cebfbf6648:4)

agent: noreply@anthropic.com (Co-authored-by trailer,

git-commit/77ec47e33107b346431f3194558ae0cebfbf6648:8)

ticket: LOAN-3 (commit subject, git-commit/77ec47e33107b346431f3194558ae0cebfbf6648:6)

What it touches: 2 entities changed, 2 impacted (2 definite, 0 probable, 0

possible), 0 gaps reported. Touches crypto: no.
src/batch/FEECALC.cbl:15-41 paragraph MAIN-PARA (modified)
src/batch/FEECALC.cbl:24 flow COMPUTE (modified)
src/batch/FEECALC.cbl:11 data LK-FEE (definite)
src/batch/FEECALC.cbl:1-41 program FEECALC (definite)
relied on by statement-print through batch-fees
Outside the impact set: equivalent. 37 tests (outside-impact-set): 37 same, 0
different, 0 errors.
Linked to this change's impact attestation by its digest.
Policy rules (OPA 1.21.1): a rule fails.
no-new-quantum-vulnerable-crypto: pass
agent-changes-need-independent-approval: fail
deny: noreply@anthropic.com took part in this change and no independent approver is recorded
(git-commit/77ec47e33107b346431f3194558ae0cebfbf6648:8)
